PART – II (SUBJECTIVE)

11. (i) How, according to Lord Eustace Percy, can one achieve success in life? [5]

Or, Who is Sunil Manohar Gavaskar? What was his real intention while he talked to Kapil Dev in a Wills Trophy Match?

(ii) What is the composition of air? When is air said to be polluted? [5]

Or, What accident took place at Bhopal in 1984? What were its tragic consequences?

12. Write an essay, in about 250 words, on any one of the following topics, keeping to the outline given. [112]

(i) Newspapers (Necessity of newspapers - different kinds of newspapers - different types of news - benefits it offers - your opinion)

(ii) Your / My Family (Introduction - members of your family - their occupations - your role in your family - an ideal family)

ANSWER: PART – I (OBJECTIVE)

11. (i) Science in Everyday Life

(Science and modern society – things we use everyday – scientific tools and equipments – their advantages and disadvantages – your views on science.)

13. Imagine you are Rajesh K. Das staying at Netaji Subhas hostel, Ravenshaw Collegiate School, Cuttack and your father is Laxmidhar Das of Anandpur, Keonjhar. Write a letter to your father, in about 100 words, requesting him to send some money for joining the school picnic. [10]

Or, Imagine you are Nandita Prusty studying in Raighar High School, Nawarangpur. You face problems in using your school toilets. Write an application to your Headmaster/Headmistress, in about 100 words, requesting him/her to take steps for their maintenance.

14. Read the passage and write its summary in about 60 (sixty) words [8]

Noise pollutes our environment just as much as smoke, foul water, dirty air and litter. It can cause illness and deafness. The human body never gets used to noise. It continues to react even though a person thinks he or she has become accustomed to all the surrounding noises. For instance, Naseer, who lived in an apartment on a busy street, often boasted that he could sleep through any kind of noise. He claimed he just didn't hear it. Well, Naseer could sleep through the roar of traffic and the blare of a television set in the next apartment, but he did not know that while he slept, his body was reacting to the stress of the noise.

A doctor in West Germany, after researching the effects of noise, concluded that sounds heard by persons when they are asleep can cause danger to their hearts and blood vessels. May be this was the reason why Naseer had so many headaches. Noise causes the blood vessels in the brain to expand. It brings no pain.

Or, Suppose you are working as a reporter for 'The Dharitri'. There was a fire-tragedy in your neighbourhood last week. Write a report for newspaper, in about 60 words.

15. Read the passage carefully, answer the questions that follow, each in about 20 words. [2×5]

Mini was a little girl who lived with her grandmother in a little cottage in the country. Near the cottage was a good wood and in the wood there was well. Mini often went to well to watch the curious little flies that skimmed on the surface. She asked her grandmother about these flies and the old woman said that they kept the well clean. When the water was made muddy by the birds that came to drink in it, the flies went skimming over the well to make the water clean again.

Mini often went to the well and did her best to keep it clean. She cleared away the weeds that were growing round it, and planted pretty flowers, and she also put pretty stones round the well. As the water running from the well spread out over the ground and made a little marsh, Mini dug a channel with her spade, and the water ran along it. The birds then began to drink from the little stream, and the well was always clean.

Questions

- (i) Who else was there in Mini's family?
- (ii) Why did Mini use to go to the well in the forest?
- (iii) Who made the water of the well dirty?
- (iv) How did Mini make the well a clean and beautiful place?
- (v) What was the place like where Mini's family was living?

ANSWER: PART – II (SUBJECTIVE)

Father – You are telling a lie.

Son – Father, believe me. I am telling the truth.

ANSWER: PART – II (SUBJECTIVE)

11. (i) Success in life comes to those who work hard and continue learning. It largely depends on good health. One must keep one's body fit by cleanliness, fresh air, regular habits, suitable recreations. One must avoid smoking and drinking for success in life.

Or, Sunil Manohar Gavaskar is a great batsman of India. He is the author of the essay Kapil Dev. In the Wills Trophy match he suggested Kapil to bowl coming close to the stumps so that his outswinger would be more effective. Unfortunately some players in Kapil's team thought of

Gavaskar's gamesmanship. But his real intention was to promote Kapil's bowling.

12. (i) Air is a mixture of gases comprising of 78 per cent nitrogen, 21 per cent oxygen and a little less than 1 per cent argon together with 0.03 per cent of carbon dioxide. As long as this composition is maintained, the air is pure. When oxygen level gets reduced or any other irritating gases enter the atmosphere, the air is said to be polluted.

Or,

A tragic industrial accident took place in a chemical plant operated by Union Carbide at Bhopal in 1984. Deadly gas from the plant escaped into the atmosphere. As a result it killed over 4000 local people and made a large number of people of the city blind and disabled.

13. (i) Newspaper is the powerful means of communication. It can shake the very foundation of the government. The newspaper helps in preparing public opinion. It has become so important in our life that we can miss our meals for the whole day but not daily newspaper.

Newspapers are of many types. They are daily, weekly, economy-based and employment newspaper.

In most of the leading newspapers, we find all national and international news.

Newspapers can be availed in Hindi, English and all other regional languages.

Press is the only medium of detailed news. The demands of newspapers are so high that we may find two or three types of newspapers in a single home.

Newspapers provide not only news but a lot of information and current topics which are helpful in career making. Question papers of many competitive examinations are beneficial for new aspirants.

We find a lot of subject matters in geography, history, political science, literature, philosophy, economics or business etc.

Newspaper is the cheap and best means of advertisement for all sections of society. Informations regarding results and vacancies are also available in almost all the newspapers.

It is an age of newspaper. They are the part and parcel of the modern civilization. A day without a newspaper is stale and tasteless. A newspaper is the mirror of all world news or events. It covers both news and views of global importance.

In modern time the role of press is very crucial (important). Newspapers can lead us towards a right direction. So everyone should make it a habit of reading newspaper.

14. (i) Family is as old as the human civilization. It is the smallest social unit where inmates live amicably and in the spirit of love, affection and sacrifice. It is the oldest organised institution of man. It is the base on which the pyramid of human civilization stands proudly and gloriously.

I belong to a Khandayat middle-class family. Our family go by the surname 'Badajena'. It is a small and sweet family of six members. They are my grandmother, father, mother, my two sisters and I, the youngest member. Being the youngest one, I am showered on with love and affection. In return I pay due regards to the senior members.

My grandmother is a sexagenarian. She has been living a widowed life since grandfather parted from her in 2014. She is a strong and stout lady. Her smiling face radiates eternal joy. She is clothed in white. In her hey days, she used to one of the prettiest women. Being gifted with intellect and cleverness we seek her advice and guidance in the matters of difficulties.

Next to her is my mother. She is the pivot of our family. She is on the wrong side of forty. She has a rosy complexion. She looks rather beautiful for her age. She possesses a slim but energetic figure. She works in a Government Girls' High School. I sometimes wonder when I notice her amazing adaptability in various work. Before she sets out for her school, she sweeps, cleans, cooks and serves meals. After her return from school, she is usually wrapped up in preparation of dinner besides guarding my lessons regularly.

My father is working as a manager in a private company. He is a jolly-dog. His sense of humour is wonderful. He hardly finds time for us to attend to our education. Yet he prefers to spend time with us during festivities and open-field amusements. He is strictly a disciplinarian.

My two sisters are very cordial and friendly to me. They take every care of mine. So I grow in the warmth of family pleasures. I am proud to be born in such an ideal and peace-loving family.

15. (i) The present age is known as the age of science. All the scientific invention and discoveries have made human life easier. People of today lead their lives more comfortably than their forefathers. Day-to-day scientific developments influence the modern society greatly. They have changed the ways of living of people. The things which seemed to be impossible in the past can be done easily now-a-days. This shows that science plays an important role in the modern society. It is obvious when we think of the things that we use in our day-to-day life.

We use a lot of things in our everyday life. Some of them are the fan, the refrigerator, the air
